

It is in challenging times that heroes are born. And you all are our heroes! It is you who helped us take our cause further in spite of the pandemic through your generous donations and support. OTF thanks you for making it possible for us to transform the dream of making quality education accessible for many students.

Let's continue counting our blessings, keep the spirit of giving alive and together take a step towards giving our youth, equal educational opportunities and a promise of a better future.

KFC Scholarship Program

OTF has embarked on a journey with KFC to grant educational scholarships to deserving students in Karachi, Lahore and Islamabad through their Higher Education Scholarship Program. With an influx of applications flowing in currently, and a rigorous screening process done through interviews, it gives us great pleasure to facilitate the process where students' dreams meet reality.

The deadline for applications is Monday 31st May 2021

Bridging Gaps for Women with Team Sui Dhaga

In collaboration with Team Sui Dhaga, OTF assisted its mothers by providing them with opportunities and resources to showcase their skills as seamstresses, building their businesses and helping them earn a steady income from them.

Two of OTF mothers are seamstresses but were unable to put their skills to use and generate an income because one did not have a sewing machine and the other did not have access to clients. With the help of Team Sui Dhaga, needs of both the mothers were met which initiated a way for them to be independent and earn a sustainable income.

OTF Women on their way to financial independence

NISA, a women empowerment program by OTF, has launched a Mask project intended to empower OTF mothers by giving them a chance to learn new skills and have an employment opportunity. With every sale of this product, you will extend employment and financial support to the mothers of OTF students who are also the artisans of this product.

If you would like to support us and order a mask please email us on nisa@orangetreefoundation.org

You can make your donation to the bank details mentioned below and share a screenshot of your transaction along with the requested details to confirm your transaction. Thank you for supporting our artisans!

Stories of Aspiration

Beyond All Hurdles

MH is a 21-year-old student studying at NED University and is currently doing BS in Development Studies. She has only one year left to conclude her degree after which she wishes to pursue Urban Planning and Management.

Her father has a small catering business and mother is a tuition teacher. MH also gives tuitions in her free time to support herself through which she earns PKR 18,000/-. Her commute from her residence to her university is long and tiring and by the time she reaches home, it's 9 pm. Due to no public transport being available near her residence at that time, she has to walk home from the bus stop.

OTF, through NISA, aims to empower women by giving them opportunities leading to personal, career and economic success. With the help of your generous donations, OTF generated funds to purchase a petrol scooty for MH to make her commute safer, easier and quicker, leaving her to solely focus on completing her education.
